The educator is aware of the consents and requirements of the child's Individual Health Care Plan (IHCP) specifying how the inhaler or epinephrine auto-injector will be kept secure from access by other children in the program. Whenever an Individual Health Care Plan (IHCP) provides for a child to carry his or her own medication, the licensee must maintain on-site a back-up supply of the medication for use as needed.

Physical Report, Immunizations and Lead Tests

Physical Reports –All children are required to have a current physical report on file. Physical reports are current for one year from the date of the last physical. All new students need to submit a physical report with their paperwork. Returning students need to submit a physical report on the anniversary of their current report on file. The West Suburban YMA Preschool Center for Youth Development will send parents a reminder when physical reports are approaching their end date and need renewing. Physical reports should reflect the date of your child's last physical exam, any allergies or medical concerns, immunizations to date and lead test date.

Please be aware that we understand that many physicals may be out of date due to the COVID-19 pandemic. If this is the case, please submit a letter stating the date your child's physical is scheduled.

Immunizations – Unless a family has a religious exemption or a medical exemption, all children need to have a record of their immunization history on file. Most pediatricians include this on the annual physical report. You will find a copy of the most recent Massachusetts School Immunization Requirements for 2022-2023 included in this packet. If your child has a religious or medical exemption, please submit proper documentation in place of the immunization records.

Lead tests – All children in Massachusetts are required to have lead tests done once a year at ages 1, 2, and 3. There is no regulation allowing for an exemption from lead tests. Please see the attached document for more information on lead testing in Massachusetts.

Lead Poisoning Prevention

In Massachusetts, screening children for lead has been a requirement since 1972. The most recent amendments, effective July 2001, require health care professionals to screen all children for lead at least once a year at ages 1, 2, and 3.

According to our Massachusetts Department of Early Education and Care License, we are required to obtain from parents or guardians signed proof, by a physician, that every child under the age of 4 has been screened for lead poisoning.

Some physicians do not screen children as often as our regulations require. This does not negate the need for the lead screening and does not fulfill our requirement of an annual lead screening. If your pediatrician is reluctant to perform an annual lead screening, walk in clinics can also perform lead screenings.

There is no exemption from the lead screening requirement. Children must have this screening in order to attend the West Suburban YMCA Preschool Center for Youth Development.
